## Electric Vehicle Technician

### Requirements IMI Accreditation Electric Vehicle Technician:

Electric Vehicle Technician must be able to work unsupervised at least two years' experience and be familiar with the skills, knowledge and techniques required to service, maintain and repair vehicles fitted with high voltage batteries / components (hybrids/electric vehicles).

To achieve accreditation candidates are required to complete: High voltage safe working, high voltage battery replacement and high voltage component replacement.

### IMI Accreditation gives Electrical Vehicle Technicians:

- Proof of current technical competence and ethical responsibility
- Pride and recognition of achievement
- Enhanced status of accredited technicians
- Automatic inclusion on the IMI Professional Register

### IMI Accreditation gives employers:

- Increased customer confidence through employing IMI Accredited technicians committed to an ethical code of conduct
- A benchmark for recruitment and training
- A recognised development path
- Independent quality assurance
- Opportunities to access marketing support and materials
- Legislation compliance
