Senior MET Technician

(Reaccreditation)

Requirements IMI Reaccreditation in Senior MET Technician:

Senior MET Technician should be working in the accident repair sector and have at least three years' experience and be familiar with the skills, knowledge and techniques required to replace various components, including returning vehicle systems to manufacturers specification and diagnosing system faults.

To achieve reaccreditation candidates are required to complete the following modules: SRS-Scan Tools, MET – complex, vehicle electrical – complex fault finding, four wheel alignment – return to specification and interpretation of data.

IMI Accreditation gives Senior MET Technicians:

- Proof of current technical competence and ethical responsibility
- Pride and recognition of achievement
- Enhanced status of accredited technicians
- Automatic inclusion on the IMI Professional Register

IMI Accreditation gives employers:

- Increased customer confidence through employing IMI Accredited technicians committed to an ethical code of conduct
- A benchmark for recruitment and training
- A recognised development path
- Independent quality assurance
- Opportunities to access marketing support and materials
- Legislation compliance
