4 Wheel Alignment AOM 012

Requirements IMI Accreditation 4 Wheel Alignment AOM 012:

This module is to assess the competence of the candidate's knowledge, skill and ability to check the vehicles four wheel alignment / geometry. This will include ensuring that the vehicle is initially set up to the correct specifications and then using recognised wheel alignment equipment compare readings taken against manufacturer's data.

The candidate will be required to reset the vehicle's wheel alignment to the vehicle manufacturer specification.

IMI Accreditation gives Technicians:

- Proof of current technical competence and ethical responsibility
- Pride and recognition of achievement
- Enhanced status of accredited technicians
- Automatic inclusion on the IMI Professional Register

IMI Accreditation gives employers:

- Increased customer confidence through employing IMI Accredited technicians committed to an ethical code of conduct
- A benchmark for recruitment and training
- A recognised development path
- Independent quality assurance
- Opportunities to access marketing support and materials
- Legislation compliance
